

12th Edition of International Conference on Neuro Psychiatry and Mental Health 2026

- ❑ **Event Date:** June 17–18, 2026
 - ❑ **Venue:** Munich, Germany
 - ❑ **Conference Website:** <https://conferenceminds.com/worldpsychiatricsociety/>
-

About the Conference

The **12th Edition of the International Conference on Neuro Psychiatry and Mental Health 2026** will take place on **June 17–18, 2026 in Munich, Germany**, bringing together leading experts, researchers, clinicians, academicians, mental health professionals, neuroscientists, psychologists, and healthcare innovators from across the globe.

Mental health and neuropsychiatric disorders are among the most pressing public health challenges of the 21st century. Conditions such as depression, anxiety disorders, schizophrenia, bipolar disorder, neurodegenerative diseases, and cognitive disorders affect millions of people worldwide and significantly impact quality of life, productivity, and overall societal well-being.

Advances in neuroscience, psychiatric research, neuroimaging technologies, and therapeutic interventions are transforming the way healthcare professionals diagnose, treat, and manage mental health conditions. Integrating neuroscience with psychiatry has opened new pathways for understanding the biological, psychological, and social factors that influence mental health.

The **International Conference on Neuro Psychiatry and Mental Health** is designed to provide a **global scientific platform for collaboration, discussion, and knowledge exchange** in these rapidly evolving fields.

The conference will feature a **comprehensive scientific program including plenary lectures, keynote presentations, oral sessions, poster presentations, expert panels, workshops, and networking sessions**. These activities will encourage meaningful interaction among participants and support the exchange of innovative research ideas and clinical experiences.

By bringing together professionals from academia, healthcare institutions, research organizations, and industry, the conference aims to promote interdisciplinary collaboration and accelerate progress in neuropsychiatric research and mental healthcare.

Participants will also benefit from professional networking opportunities, collaborative discussions, and exposure to emerging technologies and therapeutic approaches that are shaping the future of mental health treatment and neuroscience research.

Conference Theme

“Integrating Neuroscience and Psychiatry for Advancing Mental Health Care.”

This theme emphasizes the importance of combining scientific research, clinical expertise, and technological innovation to improve understanding, diagnosis, and treatment of neuropsychiatric and mental health disorders.

Chairperson’s Message

Dear Colleagues and Distinguished Participants,

It is my honor and great pleasure to welcome you to the **12th Edition of the International Conference on Neuro Psychiatry and Mental Health 2026**, which will be held in the vibrant city of **Munich, Germany on June 17–18, 2026**.

Mental health disorders are among the leading causes of disability worldwide. Advances in neuroscience, psychiatry, psychology, and clinical research have significantly improved our understanding of these conditions. However, many challenges remain in delivering effective, accessible, and patient-centered mental healthcare.

This conference has been designed as an **international platform for sharing scientific knowledge, clinical experience, and innovative research findings** that contribute to the advancement of neuropsychiatry and mental health.

The two-day scientific program will include:

- Plenary lectures by distinguished experts
- Keynote presentations by leading researchers
- Oral and poster sessions highlighting emerging research

- Panel discussions addressing current mental health challenges
- Workshops focusing on innovative clinical practices and technologies

The conference will explore a wide range of topics including **neuropsychiatric disorders, psychiatric neuroscience, mental health treatments, digital psychiatry, psychotherapy, neuroimaging, and public mental health policies.**

We strongly believe that international collaboration among researchers, clinicians, policymakers, and healthcare professionals is essential to address the growing global burden of mental illness.

Munich, known for its strong academic tradition, world-class research institutions, and rich cultural heritage, provides an inspiring setting for this important scientific gathering.

I warmly invite you to join us in Munich and contribute to the discussions that will shape the future of mental health research and care.

With best regards,

Conference Chair

12th Edition of International Conference on Neuro Psychiatry and Mental Health
2026

Conference Objectives

The conference aims to achieve several key objectives that support the advancement of neuropsychiatric research and mental healthcare globally.

- Promote innovative research in neuropsychiatry and neuroscience
 - Encourage interdisciplinary collaboration between psychiatry, psychology, neurology, and neuroscience
 - Provide a platform for researchers to present new findings
 - Discuss emerging treatment strategies for mental health disorders
 - Explore technological innovations in mental health care
 - Support the development of evidence-based psychiatric practices
 - Facilitate networking and professional development opportunities
 - Encourage participation from early-career researchers and students
-

Conference Highlights

Participants attending the conference will benefit from numerous academic and professional opportunities.

- Plenary lectures by internationally recognized experts
 - Keynote presentations on emerging research areas
 - Oral and poster presentation sessions
 - Panel discussions and interactive workshops
 - Opportunities to publish research in conference proceedings
 - Networking with global leaders in psychiatry and neuroscience
 - Recognition awards for outstanding research contributions
 - Exposure to new technologies and therapeutic innovations
-

Who Should Attend?

This conference is designed for professionals from a wide range of disciplines related to mental health and neuroscience.

Target participants include:

- Psychiatrists
 - Neuropsychiatrists
 - Clinical psychologists
 - Neuroscientists
 - Mental health counselors and therapists
 - Neurologists
 - Psychiatric nurses
 - Public health professionals
 - Healthcare policy makers
 - Pharmaceutical and biotechnology researchers
 - Academic researchers and educators
 - Medical students and postgraduate researchers
 - Healthcare technology developers
-

Key Scientific Themes

The conference will address several key scientific themes that reflect current research trends and clinical priorities in neuropsychiatry and mental health.

Major topics include:

- Neuropsychiatric disorders and treatment strategies
- Depression, anxiety, and mood disorders

- Schizophrenia and psychotic disorders
 - Bipolar disorder and affective disorders
 - Cognitive disorders and dementia
 - Addiction psychiatry and substance use disorders
 - Child and adolescent mental health
 - Geriatric psychiatry
 - Neuroimaging and brain mapping
 - Psychotherapy and behavioral therapies
 - Digital psychiatry and tele-mental health
 - Artificial intelligence in mental healthcare
 - Neuropharmacology and psychiatric medications
 - Public mental health policies
 - Mental health stigma and awareness
-

Scientific Program Agenda

The conference program has been carefully structured to provide an engaging and comprehensive scientific experience.

Day 1 – June 17, 2026

Theme: Advances in Neuro Psychiatry and Clinical Mental Health

1. Opening Ceremony and Welcome Address
2. Plenary Lecture – Global Perspectives on Mental Health
3. Keynote Address – Neuroscience of Psychiatric Disorders
4. Oral Session 1 – Depression and Mood Disorders
5. Oral Session 2 – Anxiety and Stress Disorders
6. Oral Session 3 – Schizophrenia and Psychotic Disorders
7. Oral Session 4 – Neurobiology of Mental Illness
8. Oral Session 5 – Psychiatric Pharmacology
9. Oral Session 6 – Cognitive and Behavioral Therapies
10. Oral Session 7 – Child and Adolescent Psychiatry
11. Oral Session 8 – Geriatric Mental Health
12. Oral Session 9 – Neuroimaging in Psychiatry
13. Oral Session 10 – Brain–Behavior Relationships
14. Oral Session 11 – Mental Health and Lifestyle Factors
15. Oral Session 12 – Psychiatric Rehabilitation
16. Oral Session 13 – Mental Health Education and Awareness
17. Oral Session 14 – Case Studies in Psychiatry
18. Oral Session 15 – Multidisciplinary Mental Healthcare
19. Expert Panel Discussion – Global Mental Health Challenges

20. Day-1 Closing Session

Day 2 – June 18, 2026

Theme: Innovation and Future Directions in Mental Health

1. Keynote Address – Future of Psychiatric Medicine
 2. Plenary Lecture – Integrating Neuroscience with Psychiatry
 3. Oral Session 1 – Neurodegenerative Disorders
 4. Oral Session 2 – Addiction Psychiatry
 5. Oral Session 3 – Psychiatric Genetics
 6. Oral Session 4 – Brain Stimulation Therapies
 7. Oral Session 5 – Digital Psychiatry and Telemedicine
 8. Oral Session 6 – Artificial Intelligence in Mental Health
 9. Oral Session 7 – Community Mental Health Services
 10. Oral Session 8 – Trauma and Post-Traumatic Stress Disorder
 11. Oral Session 9 – Mental Health Policy and Healthcare Systems
 12. Oral Session 10 – Psychosocial Interventions
 13. Oral Session 11 – Mental Health in the Workplace
 14. Oral Session 12 – Psychiatric Epidemiology
 15. Oral Session 13 – Global Mental Health Initiatives
 16. Oral Session 14 – Emerging Therapeutic Approaches
 17. Oral Session 15 – Young Researchers Forum
 18. Poster Presentations and Exhibitor Interactions
 19. Awards Ceremony
 20. Closing Ceremony
-

Abstract Submission Guidelines

Researchers wishing to present their work at the conference must submit abstracts according to the following guidelines.

Language: English

Word Limit: 250–300 words

File Format: MS Word (.doc / .docx)

Font: Times New Roman

Font Size: 11 pt

Spacing: Single

Abstract structure:

- Title
 - Author(s) and affiliation(s)
 - Corresponding author email
 - Background / Objective
 - Methods
 - Results
 - Conclusion
 - Keywords (3–5)
-

Conference Awards

To recognize outstanding contributions to neuropsychiatric research, several awards will be presented during the conference.

- Best Oral Presentation Award
- Best Poster Presentation Award
- Young Researcher Award
- Excellence in Neuropsychiatric Research Award
- Innovation in Mental Health Care Award

Award recipients will receive official certificates and recognition during the closing ceremony.

Accommodation and Hospitality

Accommodation will be arranged in carefully selected partner hotels located near the conference venue in Munich.

Partner hotels offer:

- Comfortable business-class rooms
 - Modern amenities and professional services
 - Convenient access to the conference venue
 - International hospitality standards
-

Check-In and Check-Out

Package A – Registration + Two Nights Accommodation

Check-in: One day prior to the conference

Check-out: After the final conference day

Package B – Registration + Three Nights Accommodation

Check-in: Two days prior to the conference

Check-out: After the final conference day

Exact hotel details will be provided to registered participants.

Meals and Refreshments

Participants will receive:

- Daily breakfast at the hotel
 - Conference lunches during event days
 - Coffee breaks and refreshments
 - Networking reception refreshments
-

Networking and Collaboration Activities

The conference includes several networking opportunities designed to encourage professional collaboration.

Networking activities include:

- Meet-the-expert discussion sessions
 - Industry–academia interaction forums
 - Young researcher mentoring sessions
 - Professional networking breaks
 - Collaboration and partnership meetings
-

Exhibition and Sponsorship Opportunities

The conference offers high-visibility opportunities for organizations to showcase products and services.

Exhibition opportunities include:

- Standard and premium exhibition booths
- Dedicated exhibition and poster interaction areas
- Direct engagement with international delegates

Sponsorship packages include:

- Platinum Sponsorship
 - Gold Sponsorship
 - Silver Sponsorship
 - Customized sponsorship opportunities
-

Registration Details

Speaker Registration – +£790

Visitor Registration – +£775

Package A (Registration + Two Nights Accommodation) – +£879

Package B (Registration + Three Nights Accommodation) – +£1,097

Virtual Presentation – +£589

Poster Presentation – +£669

Workshop Participation – +£689

Registration Benefits

Registered participants will receive:

- Full access to all conference sessions
 - Conference kit and program handbook
 - Speaker or participation certificates
 - Networking and exhibition access
 - Meals and refreshments during the conference
 - Accommodation (depending on selected package)
-

Conference Venue – Munich, Germany

The **12th Edition of the International Conference on Neuro Psychiatry and Mental Health 2026** will be hosted in **Munich, Germany**, one of Europe's most dynamic cities for scientific research and healthcare innovation.

The conference venue offers modern facilities designed for international scientific events.

Venue features include:

- Spacious conference halls
- Advanced audiovisual presentation systems
- High-speed internet access
- Dedicated networking and exhibition spaces
- On-site registration and hospitality desk
- Catering areas for coffee breaks and lunch

Participants will also have the opportunity to explore Munich's historic and cultural attractions, including **Marienplatz, Nymphenburg Palace, the Bavarian National Museum, and the famous English Garden.**
