WELCOME to the 35th Edition of International Conference on Pediatric and Neonatology

The 35th Edition of International Conference on Pediatric and Neonatology is a premier international scientific gathering dedicated to advancing pediatric healthcare, neonatal medicine, child development, clinical excellence, innovative treatments, and global collaboration.

Scheduled to be held on August 11–12, 2026, in the historic and vibrant city of Istanbul, Turkey, this prestigious event will bring together pediatricians, neonatologists, child healthcare specialists, nurses, researchers, academicians, healthcare administrators, policymakers, industry leaders, and students from around the world.

As global healthcare systems continue to face evolving challenges related to child health, neonatal survival, emerging diseases, developmental disorders, and healthcare accessibility, the need for collaborative scientific exchange has never been greater. This conference provides a comprehensive platform for discussing cutting-edge research, innovative clinical practices, healthcare technologies, and evidence-based strategies that improve outcomes for infants, children, and adolescents.

The conference will feature keynote presentations, plenary lectures, scientific sessions, workshops, poster presentations, exhibitions, networking opportunities, and expert panel discussions designed to foster innovation and advance pediatric and neonatal healthcare worldwide.

ABOUT CONFERENCEMINDS

ConferenceMinds is an internationally recognized conference organizer committed to promoting scientific advancement, professional development, interdisciplinary collaboration, and healthcare innovation.

Through high-quality international conferences, forums, summits, and expos, ConferenceMinds connects global experts, researchers, clinicians, educators, and industry professionals to facilitate meaningful scientific exchange and collaborative growth.

Our mission is to create impactful scientific platforms that accelerate healthcare improvements, foster innovation, and support global research excellence.

CONFERENCE VISION

To become a globally recognized platform that advances pediatric and neonatal healthcare through innovation, collaboration, research excellence, and evidence-based clinical practice.
